OFFICIAL PAPER OF THE STATE.

FRIDAY MORNING, JUNE 8, 1866.

Facilities for Trade with Montana.

The problem of the Montana trade is being rapidly and satisfactorily demonstrated. The superiority of the Columbia river route over that from St. Louis by way of the Missouri, is being established by the irresistible logic of facts. Letters of May 22d have been received in this city from Helena, fifteen days from that place, goods bought here and shipped up the Columbia river in March, had reached Helena, and were sold in that market by the 19th of May. These goods were landed at Wallula, and were sent by the new route of Pen d'Oreille. Up to the date of the letters we have mentioned, no boats from any point below had arrived at Fort Benton. Advices from St. Louis give information that the whole Missouri fleet is detained by high water at points far below the place of their destination. The Missouri river is unusually high this spring, and the boats are unable to stem its violent current. Last year the river was too low for navigation, and the boats engaged in the Montana trade were mostly compelled to stop at Fort Union near the mouth of the Yellowstone, and send their cargoes overland at a great expense of money and time. The best season of trade is rapidly passing by, and no goods from St. Louis have yet reached the markets of Montana. Meanwhile merchandise shipped from Portland for Helena in March, reached its destination some weeks ago, and arriving before that from St. Louis, of course obtained the best prices in the market. Thus it has been fully demonstrated that Oregon, if she puts forth proper exertions, can have no successful competitor for the Montana trade.

St. Louis has persons in Montana who represent her interests, and who look with jealousy on the claims of Oregon for the control of this valuable mining trade. These persons are busy misrepresenting and belittling our enterprises, affecting to think that no merchandise shipped from here this spring could yet have reached Helena. Provided we enjoy the trade, it is of little consequence how much they magnify the assumed advantages of their own route. Facts like the above will tell at last, in our favor, and will surely confirm Oregon in the final possession of a great and growing trade.

ANOTHER REBEL PRIVATEER SURRENDERED.—A suit was instituted in the Admiralty Court of London on the 24th of April last by the Government of the United States to obtain possession of the ex-rebel privateer *Tallahassee*. This vessel, it will be remembered, was one of the rebel cruisers which gave us so much trouble—having captured and destroyed many of our merchant vessels during the rebellion. In the spring of last year she arrived at Liverpool, and was arrested, at the instance of the United States Consul at that port. The case came before the Court in April last, as above mentioned, and possession of the vessel was decreed to the Government of the United States. Our Consul at Liverpool took formal possession of her immediately. About a year ago our Government commenced demanding indemnity for the ravages of these rebel cruisers, but now contents itself with merely claiming the vessels—appearing in the character of a sort of residuary legatee of the Southern Confederacy. This "settling down" in our foreign policy is fully paralleled by the achievements of that wonderful statesmanship which has made treasonable traitors honorable.

TRICK.—One of the disgusting dodges resorted to in Marion by the Copperheads, will bear ventilation. Notwithstanding their professed indignation at the prefix "O" to the name of Fay, Kelly and company, as used occasionally in the Union papers, they were not proof against the temptation to use a little of the real Irish blarney, themselves where they thought they could make a few votes by it. Mr. Herren, the Copper candidate for Sheriff, is a full blooded American, of evident German descent, as we are told. Mr. Murphy, the Union candidate, is Irish. On the French Prairie there are whole neighborhoods of Irishmen, some of whom were for Murphy, on account of his Irish name. To head off the Irish bond of Irishmen voting against Mr. Herren on account of nationality, the Coppers took him down among the Irish, and introduced him to them individually as "Mather O'Herron"—"Mather O'Dougherty, this is Mather O'Herron," "Mather O'Herron" didn't look very Irish and couldn't manage the brogue well, so the dodge rather fell short of the mark. But "Mather O'Herron" will not soon get rid of his Irish prefix.

UMATILLA COUNTY.—Reports from Umatilla county show a Democratic majority of about 200, with three precincts to hear from, which Democrats claim will increase it to 250. If the other counties cast of the mountains give like majorities for the Democrats, it will make the result in the State very doubtful.

THE SITUATION.—If the majorities reported for the Democrats in Umatilla and Columbia counties be correct, Mallory's majority, so far as heard from, is reduced to about 500, and Woods' to about 400.

COLUMBIA COUNTY.—Later reports from Columbia county indicate, it is said, 25 to 40 Democratic majority.

Letter from Salem.

SALEM, June 5th, 1866.

Two convicts, named McMillen and Smith, escaped from the charge of Mr. Shaw on Tuesday morning. They were what are called "Trusties." Four men were taken out to dig a grave and prepare for the burial of a convict who had died; two of them in charge of a warden were set to digging while the other two were taken by Mr. S. a short distance away to clear out a road to the grave. While they were in this employment, Mr. Shaw went away a short distance to look out the way, and when he returned the convicts were gone. A reward is offered for their apprehension—$100 each.

It is reported here that on Monday, two men named Dodge and Westlake, got into a drunken fight at Albany on election day, which resulted in the severe wounding of both and probable death of the latter. You have probably heard of this by telegraph.

The election went off quietly here. Cops are jubilant at the reported successes they have met with in Linn, Lane and Jackson and the reduction of the majority on the Union State ticket. A good deal of betting took place here. The Cops were so confident that they bet pretty heavily, taking small odds both in this and Multnomah counties. The result has cost them nearly every bet made.

State Items.

A letter from Auburn to the *Mountaineer*, dated June 1st, says: The Indians, on the Owyhee, ten days since, killed twenty-seven Chinamen and two Americans, and a day or two afterwards, killed two citizens and six soldiers at Owyhee Ferry—both transactions being on the *Hellgate* Chico route. The news came by letter yesterday, and is reliable.

The *Mountaineer* says that the river at the Dalles is booming. Every store on the south side of Main street, from the railroad bridge to Bloch, Miller & Co.'s, is vacated. The water on the street is about two feet deep; and the chances are favorable for the residents on Second street being compelled to change their bill board before many days. We misunderstood yesterday. The damage done by the high water of this year will, we think, far exceed that of 1862, and in dollars and cents will amount to thousands.

Within the past ten days, says the Jacksonville *Sentinel* of the 2d inst., we have been in almost every section of the county, and find that the prospect for large yields of grain was never more favorable. The heavy showers of rain which have fell in almost every locality will be sufficient to bring the barley, wheat and oats crops out in their greatest abundance. The corn crop is all that looks anyways bad, and it is thought the cold weather has effected it, and as soon as warmer weather comes, it will grow with increased vigor. The fruit crop will be large this fall, but probably not as great as last year, as the frost injured the peaches in many localities, but, where such was not the case, the prospect for a heavy yield is good.

By Overland Telegraph.

[DISPATCHED TO THE OREGONIAN.]

DATES TO JUNE 4.

TORONTO, June 2.—Early this morning troops left Fort Colborne under command of Col. Booker, of the 13th Regiment, "The Queen's Own," and three miles from Ridgeway Station, the Fenians were found encamped in the bushes. The column at once attacked them, the Fenians were driving the Fenians. A number were killed on both sides. The volunteers behaved splendidly, rushing at the retreating Fenians with the utmost gallantry. It is thought the volunteers will at least hold their own until the arrival of British regulars are at Every. Later—12:30 p. m.—The battle is still going on. The Queen's Own's and regulars from Toronto were the ones behind them in force. The forces engaged previous to their arrival were about equally opposed, about 800 strong. Later, 1:30 p. m.—Dispatches have just been received stating that "The Queen's Own" were driven back with the loss of some 15 killed and 20 wounded, but finally rallying again drove the Fenians back again with considerable loss at Ridgeway. She was lying at dock, when 200 Fenians came over the hill and fired into her. The line lanched into the stream and fired two shots while floating down. The Fenians then attacked the company of volunteer artillery posted in the town and after a brief resistance the Canadians wavered and finally gave way retreating down the banks, rallied at the dock. The tug steamer Robb arrived at same moment of the Canadians. The tug finally cleared the Canadians surrendered. The affair lasted almost 20 minutes. The Fenians did not re-capture any of their men. The fight was witnessed by a large number of persons on this side.

BUFFALO, June 2d, 6 p. m.—Accounts from the battle of Ridgeway are so conflicting that it is almost impossible to get the truth. Some still assert the Fenians drove and whipped the Canadians, and others the contrary. Col. Starr, Commanding the Fenians, gave orders to scatter and save themselves.

The affair at Fort Erie this afternoon was brief but severe. The Canadian captain was wounded and a Fenian captain killed. The British force consisted of the Thirty-fourth, Sixteenth and Tenth regulars. Artillery, besides Canadian volunteers, are now en *route* to Fort Erie. One hundred and fifty are expected there to-night.

NEW YORK, June 2.—The Fenians are momentarily expecting important news from the St. Lawrence. General Sweeney was expected to cross the river somewhere below Hunter's Point to-day. Gen. Sweeney left New York last night in citizen's clothing, followed and propelled by 5,000 men from the First, Fourth and Sixth wards, desperate cases ready for anything. To-day the streets are filled with Union officers and spiders and naval men, asking for Sweeney's headquarters. They say they have had four years of service, and will not be cheated out.

A St. Albans (Vt.) dispatch says the Fenians are moving in that direction, commanded by Maj. Speat, late of the regular army. St. Armands said to be their rendezvous. St. Albans inquire this morning. Toronto dispatches say there are at least 4,000 troops within a few hours march of the Fenians, and plenty more reserves.

BUFFALO, June 2.—5 p. m.—Parties here who have the best of information say the Fenian movement from this direction is only a feint and Pottsdam is to be the base of supplies, and the real point of attack is Prescott; surprise however is expressed that no news has been received from other points of any demonstration. Somebody has evidently failed to come to time.

BUFFALO, June 3.—All quiet on the Niagara. General Meade and United States District Attorney Dopt, have gone to Pottsdam and will take a survey.

CHICAGO, June 4.—The Fenian invasion at Fort Erie has terminated disastrously. From the mass of dispatches it appears that reinforcements attempted to cross the Niagara river on Saturday night, June 2d, and were driven back by the United States patrol boats. The situation on the Canadian side being perilous from the close proximity to 5,000 British regulars, under Col. Harding, Col. O'Neil, commanding the Fenian invaders, attempted to retreat across the river under cover of the darkness, on Sunday morning, June 3d, when the Colonel, staff and from 300 to 500 men were picked up by the patrol boats. They are now on rafts anchored in the river a few miles below Buffalo under guard of the United States steamer Michigan, it being thought dangerous to bring them ashore. Fears of a rescue might be attempted by several hundred Irishmen who swarm the American shore.

The British troops now guarding the Niagara frontier are picking up Fenian stragglers, of whom it is estimated 200 to 300 remained after the evacuation. The Fenian loss will exceed 25 killed. The British loss killed will not exceed 1,000. The British loss is estimated at fifty killed and wounded. Gen. Barry having assumed command on the American frontier from Erie to Ontario, is prepared to prohibit any further breach of neutrality. He is awaiting instructions from Washington as to what to do with the prisoners. Gov. Fenton has not yet talked on any militia, and will not intercept the retreat of the Government. The air is filled with rumors of demonstrations real and threatened from all points from Port Colborne to St. Albans. There does not, however, at present writing appear to be any evidence that anything beyond mere threatened attacks have been made at any point except from Buffalo, Gen. Sweeney was in Albany yesterday, and started last night for Pottsdam. A dispatch from Albany says the Niagara failure does not discourage the Fenians. There is great enthusiasm for another invasion in stronger force. A dispatch from Detroit says 4,000 Fenian rifles were seized there yesterday. Dispatches from Canada represent that there was great excitement in Toronto, Montreal and all the principle cities yesterday. Not a doubt is felt that the British preparations are so thorough that no further invasion need be apprehended.

OGDENSBURGH, N. Y., June 4th.—General Meade and staff are perfecting arrangements to enforce the neutrality laws. He came on as far as Dolltall Junction on the same train with General Sweeney, and some 250 Fenians. General Meade thinks the Fenians gathered in northern New York mean fight. Sweeney and his men left Dolltall Junction for Malone, New York, where nearly 1000 Fenians are gathered. Three companies of regulars have arrived at Ogdensburg. Twenty-eight companies of British troops are now at Kingston, Canada. Two British gunboats are kept fired up ready to transport troops to any point.

BUFFALO, June 4th.—About fifteen cases of arms were seized by the United States authorities at the Central Depot to-day. Several hundred Fenians arrived in the city this evening, and they still fast, at movements on this frontier, especially as but a small number of British troops are at Fort Erie, most of the force having been ordered elsewhere yesterday.

WASHINGTON, June 4th.—Sir Frederick Bruce, British minister, had a long interview to-day with Secretary Seward, and it is said asked the Government to surrender to Canadian authorities the Fenians captured by the U. S. steamer *Michigan*. The request was not complied with, as it has not been decided what course the Government will pursue in disposing of those that fall into our hands. It is most probable that they will be turned over to the civil authority for trial for violation of the neutrality laws.

In Memory of Gen. Scott.

CHICAGO, May 31st.—The Government offices and Board of Trade throughout the country will be closed to-morrow. Both houses of Congress adopted resolutions of respect for the memory of Gen. Scott and appointed a committee of seven Senators and Nine Representatives to attend the funeral. Congress has resolved to adjourn till Monday.

A Steamboat Explosion—A Churchman Expelled.

CINCINNATI, June 1st.—The steamer *City of Memphis* from below, for St. Louis, exploded her boilers 40 miles below Memphis yesterday. Ten lives were lost and 30 persons were scalded.

Rev. W. Ferguson, delegate from the Zanesville, Ohio, Presbytery, was expelled from the Old School General Assembly at St. Louis, yesterday, for the authorship of a letter published in the Columbus, (Ohio) *Statesman*, denouncing the radical majority in the Assembly.

Fire in St. Louis.

ST. LOUIS, June 1.—Several buildings, including the Metropolitan Theatre, were burned last evening. Loss, $100,000. The loss by the burning of Freeman's warehouse, on Wednesday night, was about $200,000.

Spain and Peru.

NEW YORK, June 1.—Further advices from Callao say that the government of Gen. Prado was more popular than ever since the fight, and all Spanish subjects had been ordered to leave the Republic, under penalty of perpetual imprisonment. A grand celebration of the victory at Callao took place at Lima on May 13th.

The War in South America.

NEW YORK, June 1.—Advices from the seat of war on the Parana river, South America, are important. There was fearful slaughter on April 10th, of 12,000 Paraguayans who attacked the Brazilians on the inland opposite Atapatare. Ten thousand Brazilians crossed the Parana on the 10th, without opposition, and drove the enemy, killing and wounding 3,000. The next morning they occupied Atapatare. The Paraguayans had retreated. The Brazilians had crossed the upper Parana river, and reached the railway within thirty miles of the capital, Asumpsion, which cannot be held. The speedy end of the war is anticipated.

The British troops now guarding the Niagara frontier are picking up Fenian stragglers, of whom it is estimated 200 to 300 remained after the evacuation. The Fenian loss will exceed 25 killed. The British loss killed will not exceed 1,000. The British loss is estimated at fifty killed and wounded. Gen. Barry having assumed command on the American frontier from Erie to Ontario, is prepared to prohibit any further breach of neutrality. He is awaiting instructions from Washington as to what to do with the prisoners. Gov. Fenton has not yet talked on any militia, and will not intercept the retreat of the Government. The air is filled with rumors of demonstrations real and threatened from all points from Port Colborne to St. Albans. There does not, however, at present writing appear to be any evidence that anything beyond mere threatened attacks have been made at any point except from Buffalo, Gen. A grand celebration of the victory at Callao took place at Lima on May 13th.

The War in South America.

NEW YORK, June 1.—Advices from the seat of war on the Parana river, South America, are important. There was fearful slaughter, on April 10th, of 12,000 Paraguayans who attacked the Brazilians on the inland opposite Atapatare. Ten thousand Brazilians crossed the Parana on the 10th, without opposition, and drove the enemy, killing and wounding 3,000. The next morning they occupied Atapatare. The Paraguayans had retreated. The Brazilians had crossed the upper Parana river, and reached the railway within thirty miles of the capital, Asumpsion, which cannot be held. The speedy end of the war is anticipated.

Monetary.

NEW YORK, June 4.—The Bank statement is as follows: Decrease of loans, $301,401; decrease of deposits, $1,805,051.61; decrease of legal tenders, $1,060,855; increase of specie, $2,122,104. Cotton is dull and declining.

Washington News.

WASHINGTON, June 2.—A Committee appointed by the Democratic caucus, among whom were Senators Guthrie and Hendricks, and Representatives Randall, of Pennsylvania, and Logan, of Missouri, called on the President to-day. The results of the interview are unknown.

The Postmaster General to-day sent to the Senate a report to the resolution relative to the establishment of a telegraph in connection with the Postal system. He concludes as follows: "As the result of my investigation, I am of the opinion that it will not be wise for the Government to inaugurate the proposed system, not only because of its doubtful pecuniary success, but also because of its questionable feasibility.

WASHINGTON, June 4.—In the Senate Hendricks and Doolittle made speeches against the reconstruction programme, as several amendments to it were rejected. Union Senators had a caucus after the adjournment. The proceedings were secret.

In the House, Price, of Iowa, introduced a bill providing that all civil officers appointed by the President or heads of departments except clerks, shall hold office for four years from the date or appointment, and shall not be subject to removal during their term, except for malfeasance, and in all cases where the advice and consent of the Senate is necessary to appoint, the same advice and consent shall be necessary before any removal shall be made.

The House cleared its calendar to-day of the resolutions which have been lying over since March. Many of them were of much importance, but the prompt refusal of the House to act upon Dawson's resolution, offered on the 16th of March, to the effect that the United States cannot guarantee a loan for Mexico, is taken to indicate a disposition to look favorably upon the enforcement of the scheme.

Foreign.

FORTRESS MONROE, June 4.—The steamer *New Notion*, from Liverpool, May 24th, via Londonderry May 25th, has arrived. Consols, 89⅝@89¾; 5-20's 84@84½. Cotton declined ½d during the week; sales for the week, 28,000 bales of middling, closing at 12½. Breadstuffs nominal; provisions declining. The political situation was unchanged. More failures are reported and financial affairs were gloomy. A combined English and Turkish corps d'armee is at Waldavia, May 22. Omer Pasha commands the Turks and Gen. Rejzobie commands the Russian troops.

NEW YORK, June 4.—The steamers *Hermann* and *Mississippi* bring foreign advices to May 23d. The London *Post* of May 23d publishes a Paris telegram stating that it was definitely arranged that the representatives of France, England and Russia on one side, and those of Austria, Prussia and Italy on the other, would assemble at Paris under the presidency of Drouyn de la Huys for a formal opening of a conference to settle the questions appertaining between Prussia, Austria and Italy. It was reported at Paris that Lord Cowley, the British Ambassador at Paris, would shortly proceed to Vienna. The London *Herald* says the congress for conference can do nothing more than roll out all one or the other becomes exhausted under military preparations.

The official Dresden *Journal* of May 21, says: "The congress was agreed to by all the Powers, and would meet on May 26th. Another dispatch states that Austria received intelligence to join in the conference, and it was assured that she would persist, and probably be represented *pro tem.* by England and Russia. There is, however, no indications of a relaxation in military preparations by the several Powers, and the almost unanimous feeling now is that a pacific solution was hopeless.

LONDON, May 24.—The Herald says: "Napoleon is unchanged." The statement that all the Peace Congress called to the congress was premature, but is confirmed that invitations were sent out.

PERFECTION OF ART.—The J. ELLIS WORTH & CARDWELL PHOTOGRAPHIC GALLERY, 88 First street, and see the BEAUTIFUL PICTURES and specimens of the finest materials still on exhibition there. This GALLERY still leads all others in the quality and finish of SUN PEARLS, CARD-PHOTOGRAPHS, etc., etc.

GREAT SAVING IN DRESSMAKING.

MRS. CURTIS'

FIRST PREMIUM MODELS.

BY THEM A LADY CAN IN A FEW MINUTES shape any article of wearing apparel, including Gored Dress, Basquine, Sack, Cloak, etc., so as to fit perfectly, without trying on. Unlike any other, this system is mathematically perfect, hence it removes all anxiety regarding the fit of a Dress. It is not only exact, but superior and simple that any person can learn in an hour to cut any garment, either for Ladies, Boys or Gents.

These Models have been tested by a very large number of ladies, and by the best Dressmakers in San Francisco and other places, and all are delighted with them.

☞ Applications for instruction addressed to MRS. PARROT, 55 north side of Alder street, between Third and Fourth, will receive prompt attention.

Models supplied gratis to those taking instruction, and fashionable Patterns sold separately if desired.

MINERVA PRIMMER.—On the matter of supplying the mining regions of Montana more should be done at once. Portland is within four days time of those mines, by the route up the Columbia and Missouri. The TRANSPORTATION COMPANY connecting with the boats of the OREGON STEAM NAVIGATION CO. will carry passengers from Portland to Wallula in one day, and that San Francisco may reach the same destination in seven days connecting with the same companies at Portland. At all seasons of the year this route may be traveled. How is it from the Great Salt? The Missouri Republican, the *Atlas's* St Louis letter of April 24th will show. "When your merchants hold counsel up in San Francisco, some time ago to devise measures for securing the Montana trade they should have collected statistics of the losses in business of transporting freight up the Missouri river last year. They would have found ten per cent of the cargoes of boats *were lost or damaged*. This year it promises to be still worse. The Montana boat the *W. S. Grant*, crept under and is now at work of about five hundred tons. Some of them lying for repairing, with freight still in the hold, others ashore, with the river falling. All around them and on gravel between rocks awaiting high water. The probabilities are the St. Louis Insurance Companies will have to pay about twice or thrice as much for losses as they have received for premiums. Yet many more boats are loaded for the mountains, and many of them will never return. One boat, the *Dirt Eaters*, is provided with sheet iron around the wheel to face against the Indians, *but the worst enemies the craft have to encounter will be on the bottom*, and not on the top of the river. Indeed such a report is of the Montana freight and via the upper Missouri river is last that the last effort to secure the trade to California must discredit a superior route. Yet, when we recall these experiences, does it not seem ridiculous that a Cascade rapids, overhead tape should have been seriously proposed around the Columbia river, by the use of Missouri and the upper Columbia rivers, to supersede the route across the plains."

GOOD TIME.—Passengers from Montana inform us that they made the trip through from Calmet Falls on Clark's river to Portland in 60 hours traveling time.

Early hours from Montana to Portland is pretty good. The steamer *Mary Moody*, Capt. Copsey, made the distance of 85 miles, from the Cabinet to Belknap Landing, in three hours and forty minutes. Those are progressive times with our people. Too much cannot be said in praise of the enterprising gentlemen composing the Oregon and Montana Transportation Company, for the zeal manifested by them in putting freight and passengers over the line of their routes in quick time. We admire this enterprise as one of the great last accomplishments in the history of this region of country, and feel sure that the efforts of the projectors will be handsomely rewarded. It requires months for the trader in Montana to get to it. Loads, make his purchases, and return, but by the route now about opened the whole business may be transacted in a few number of days, and we feel very confident that the proprietors of this enterprise cautiously against the "set back" which will be of short duration. The news from Montana is of a character calculated to awaken a more lively interest among our people than ever before, and we shall expect to see the tide of emigration continue, without meeting the usual counter-current of disappointed adventurers. The troubles attending transportation on the Missouri at present season has had an effect to discourage many of the most ardent advocates in the interest of St. Louis, as may be expected to henceforth take an interest in the business of the Pacific coast, where the facilities are near in all respects, and as regards safety and reasonable transportation, are far superior.

SHOW AT SEATTLE.—Mr. Mercer addressed the citizens of Seattle, W. T., a few evenings since, in regard to his experience while in the East conducting the famous immigration scheme. He was listened to with marked attention, and frequently applauded. He claims that the steamer Continental was sold by Government to Holladay for $30,000 less than she was worth, in consequence of the expedition. He claims having cash bonds to the amount of $10,000 on account of delays. On his arrival at San Francisco, where he expected aid, he was told "times were dull," and experienced a delay here that cost him expense of $3,000 in gold, and an embarrassing cash account at present. The sufferings was imposed, in part, of the fair Immigrants who had to be hurriedly arrived, and says the Gazette, it is a fact, that has no little weight in vindication of Mercer's reputation against insults that have been made upon it, that those immigrants place the utmost confidence in him. At the close the chairman made a few very appropriate remarks, after which the meeting adjourned, all parently well the best feeling towards Mr Mercer and all concerned.

TRAVELING TOPICS.—Last evening we heard the identical "squeak" boots in the hall, and our mind instinctively turned to "Kale of Kaleshale" the escaped Governor of some one, probably by account of the taking mud in the afternoon with Gov. Ballard, who is en route for the seat of government in that classic Territory to fill the gubernatorial chair. But in this we were disappointed; we found it only some of the boots which "belong" to party connected by whom we read in the Boise *Statesman*, and that several gentlemen from Idaho were in the city at Allen to pass through and tried to gain view of the but he dodged and evaded them. Gov. Ballard is a fine looking man. He will be found by the people of the Territory worthy gentleman, and will make for them most reliable executive officer. He leaves Portland today, we understand, by the Mariner Chronicle.

MAY BORE.—Capt. A. B. Richardson of the bark Mayflower informs us that the fifteen heavy guns, weighing from a ton of eight or ten tons each, were discharged from the vessel at the fortifications at the mouth of the Columbia river, by the use of one of Crawford's powerful machines, operated by Mr Atkinson, in an average time of one hour and fifteen minutes for each gun unloaded. The Mayflower is expected to be weeks in discharging its cargo of coal at Astoria, but meeting with Mr. Atkinson who proved to do the work for him, he has saved much time, labor and expense, and consequently feels grateful for, and desires us to say that he will endorse all recommendations in favor of the small but powerful invention, and can be found.

DISCHARGED.—Frank Soule, arrested for an assault on Mr Mahlre, was discharged upon investigation of the case before Recorder Hoffman yesterday. The case was tried by a jury. It appears that Mahlre entered the saloon of Mr Soule, the Pioneer Hotel, on the 3d day of June, and in the absence of Mr. S. attempted to go behind the bar. A little daughter remonstrated to this which Mahlre began abusing her, and an old gentleman named Black interfered, upon which McGuire twisted his nose. The rough was then put out of the house by a few of the bar room. Soon after Mr. Soule entered, followed closely by McGuire, who struck Soule in the face. Mr. A. spoke turned in and gave him a severe thrashing, and he has very properly justified his course.

THIRTY PARISH.—In connection with our notice in yesterday's paper, of the Fair to be given by the ladies of Trinity Parish, we have learned in addition, that the Rev Mr Eloy, of California, is expected soon to take charge of the Parish. Since the resignation of Rev. Mr Bellay, Trinity Parish has had no settled Rector, and it is with pleasure we learn that this pleasing want is to be supplied. There is already on hand a large quantity of articles, both useful and elegant, manufactured by the fair hands of the ladies, and donated by well-wishers of the church, and the public may be assured that an evening at this fair will be well spent.

WORK OF ART.—We can say without fear of contradiction, that the works of art by Mr. Bellay, of this city, will compare favorably with any produced in the Western country. Passing the establishment of Messrs. Shannahan & Dufresne yesterday, those gentlemen directed our attention to a large portrait just framed of a friend of theirs, and it inspired within two deeper regard of appreciation had been subjected to the retouching process by Mr. Bellay than we have ever felt for the proficient artist. It reflects on our people, by a liberal patronage, will give Mr. Bellay no excuse for leaving Oregon.

CONTRABAND RECEIVED.—As will be seen by reference to appropriate column this morning, our friend James Lee has taken to himself a partner for life. Give us your hand, James. You have done just right. We always regarded your worth to society, but now that you have properly surrendered yourself, in accordance with the "old settlement rule," and been placed under control of one of the best instrumentalities for keeping a man straight, we congratulate you. Long life and happiness attend you.—5 years.

PLEASURE.—The river yesterday receded one inch. We think there are reasons to believe that the rise this season will not be any greater. The water barely reached the grade of Front street at the intersection with B street. All will be delighted if nature will continue to make our water fall, although it has been some time getting about it.

BOOKS.—A lady remarked yesterday in our presence that the new story about to be published in *Harper*, entitled the "Three Little Spades," by Miss Warner author of the "Wide, Wide West," would not take well, as the publishers have announced that it is based upon a "novel idea," and people generally are of late becoming more averse to reading novels.

EXTENSIVE ESTABLISHMENT.—As will be seen by the advertisements of Messrs. Ehrll, Lowenstein & Co., that firm have recently established themselves in Portland with the long established and well known firm of Goodwin & Co., San Francisco. This will give them good opportunities with San Francisco, for supplying the trade of this section of the coast in furniture.

RIVER VIEW.—The new flouring mill (Messrs Brown & Palmer, at Dayton, Yamhill county is now in successful operation, and produces a fine quality of flour. The brand is offered in this city and is becoming quite popular already, for family use.

REAL ESTATE SALE.—The lot corner of Yamhill and Third street, beautifully situated, with a fair cottage and stable, was sold yesterday at auction by Mr. A. P. Richardson for the sum of $1,600. The purchaser was Mr. W. D. Conner of the What Cheer.

THE STEAMERS.—The steamship *Sierra Nevada* Capt. Francis Conner, is advertised to leave for San Francisco tomorrow at 5 A. M. The new steamer *Montana*, of the Anchor (opposition) Line, Capt J. B. Kelly will leave for the same destination to-morrow evening.

THEFT.—An Idaho man was brought to the Asylum on Tuesday, by Deputy Sheriff Parker, of Clatsop county. The substance was lost, in his time, been a useful citizen; "So goes the world."

Attend the new furniture auction sale at *J. Lowenstein & Co's* 138 and 140, Front street, at 10 o'clock this morning. Parties desiring furniture of any class or quality will be able to purchase at their own prices.

THE SAN FRANCISCO.—The bark *Atlantis* is now about ready for sea. She will leave Oak Point to day, possibly, with a cargo of lumber for San Francisco.

KNOWLES sells to-day a large and desirable lot of furniture of every description, also a fine-toned piano. See advertisement.

NOTICE.—GOODWIN & CO., of San Francisco, Cal., have an interest in our business in Oregon. See the advertisement, EHRLL, LOWENSTEIN & CO.

Portland, June 7, 1866.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO June 7.—The new Merchants' Exchange building, corner of Battery and Washington streets, was formally thrown open for business to-day. The rooms set apart for the use of the Exchange are large and pleasant, and a great improvement on those heretofore occupied for similar purposes. The attendance was quite large, and we are informed the subscription list is increasing.

The Raccoon Gold and Silver Mining Company has finished the tunnel on their property. They struck pay dirt in the tunnel, which is in Yuba County, and will yield at least $2,000 per day.

The Pacific Glass Works, the largest of the Pacific Glass Works, have been sold by Government to Holladay for $30,000. It was built, and is worth, in consequence of the expedition. He claims having paid back to the amount of $10,000 on account of delays. On his arrival at San Francisco, where he expected aid, he was told "times were dull," and experienced a delay here that cost him expense of $3,000 in gold, and an embarrassing cash account at present. The sufferings was imposed, in part, of the fair Immigrants who had to be hurriedly arrived, and says the Gazette, it is a fact, that has no little weight in vindication of Mercer's reputation against insults that have been made upon it, that those immigrants place the utmost confidence in him. At the close the chairman made a few very appropriate remarks, after which the meeting adjourned, all parently well the best feeling towards Mr Mercer and all concerned.

Judge Sawyer this morning rendered judgement for Plaintiff in the suit of D. P. Hastings *et al*, vs. the Burning Moscow Island Silver Mining Company. The judgment is for the plaintiff's undivided one-third interest, which Judge Sawyer set in Nevada against the Burning Moscow Company for $25,678 81, under which they attached the mining ground and assets of the company at Virginia City. Complaint then goes on to recite the steps taken towards a compromise between the Ophir Silver Mining Company and the Moscow, involving the ownership of the ground under which the plaintiffs have a lien, by virtue of the attachment and execution of the plaintiffs never that if the Moscow Co. consent to a dismissal of suits with Ophir Co. through which the title of the property was to have been settled that they would abandon the mines to Ophir Co., and leave the plaintiffs without recourse as the mines, as said is then only assets the Moscow Company have, and which can satisfy their judgment. Judge Sawyer granted a temporary injunction last October, restraining defendants from making such compromise and his judgment rendered to-day makes the injunction perpetual.

Judge Dwinelle to-day granted to Dan'l McCarthy a divorce in his wife Ellen McCarthy, on the ground of desertion.

James Riley, who recently arrived in this city from New York, was found dead in his bed, at No. 228, Bitch street yesterday.

There is much anxiety in commercial circles touching financial affairs in Europe and in the Atlantic cities, and business men are unusually timid about entering into operations involving large sum units of money while events of moment are supposed to be transpiring at the leading financial centers.

The treasure shipments from New York for three weeks ending Saturday June 2d reached $2,000,000, or $85,000,000 for the May 1st to June 2d. So exhaustive a drain could not fail to cause a material advance in gold, especially as commercial bills are coming back under the credit. Under these circumstances there is no active demand for bullion here for remittances by Saturday's steamer, and prices have again advanced.

The mining share market has lost the buoyancy noted yesterday, and lower prices were very generally the rule than since the morning board yesterday. Yellow Jacket fell $60 a Belcher and Choller-Potosi each $15; Bullion and Overman each $10, Ophir and Imperial $3 and Savage $25, Gould & Curry and Chollenger were the other leading little better. Legal Tenders are quoted at 72½@ 69¾ to day.

Flour—There is fair demand at previous prices. Superfine bbls are $5 50@5 62½, extra $5 75@6 00, extra family $6 25@6 37½, extra $6 50@6 60.

Wheat—Market quoted but firm, sales of 2,000 sks choice at $1 80@1 85 per lb.

Barley—750 sks brewing $1 45@1 50 quoted at 77½@80¢ per lb. Market firm. Oats $1 00 @ 1 10 lb.

Arrived June 6—the British ship *Morrison Taylor* 57 days from New Castle, N S W. Bark *Camden*, 28 days from Honolulu.

Sailed, June 7—Bark *Vernon* Puget Sound. Bark *Legal Tender*, Puget Sound. Bark *Archibald*, Puget Sound. Bark *Jane A. Falkenburg*, Columbia River.

Important Telegraph Decision in Nevada.

VIRGINIA, (NEV.) June 7.—In the case of the California State Telegraph Company vs. The United States Pacific Telegraph Company, in the Circuit Court of the United States for the District of Nevada, Judge Baldwin has granted an injunction restraining the latter company from telegraphing on their lines between Virginia and the other cities of Nevada and San Francisco and other cities in California. This injunction, together with that lately issued in California, closes the business of the United States Company on this coast.

C. R. MACK,

DENTIST,

Arrested by J. H. HATCH, D. D. S., of the Pennsylvania College of Dental Surgery, late of San Francisco, California. It is sufficient commendation that he is considered as a Dentist of Superior Skill and a Gentleman by Messrs R. H. McDONALD & CO., Dr. COLE, Dentist, and many others of San Francisco.

The Patronage of those desiring FIRST-CLASS and FINISHED OPERATIONS is particularly requested.

Persons of sedentary habits troubled with weakness, inactive pulsation of the heart lack of appetite, dizziness on rising suddenly torpid liver, constipation, &c. &c. receive benefit if they will notify the undersigned

PLANTATION BITTERS,

Which are now recommended by the highest medical authorities and warranted to produce an immediate beneficial effect. They are exceedingly agreeable, perfectly pure, and must commend to all their tonics whom healthy, gentle stimulants are offered.

They purify, strengthen and invigorate.
They create a healthy appetite.
They contain antidotes to change of water and diet.
They overcome effects of dissipation and late hours.
They strengthen the system and enliven the mind.
They prevent miasmatic and intermittent fevers.
They purify the breath and acidity of the stomach.
They cure Dyspepsia and Constipation.
They cure Diarrhea and Cholera Morbus.
They cure Liver Complaint and Nervous Headache.
They make the weak strong, the languid brilliant, and are unbounded nature's great restorer. They are composed of the celebrated Calisaya bark, wintergreen, sassafras, roots and herbs all preserved in perfectly pure 80 Orole rum. For particulars, see circulars and testimonials around each bottle.

Beware of Imposters. Examine every bottle. See that it has our private U. S. Stamp unmutilated over the cork, with plantation scene, and our signature on a line of colored label. See that our bottle is not refilled with spurious and inferior stuff. Any person putting up such Plantation Bitters by the gallon or in bulk is an imposter. Any person imitating this bottle, or selling any other material thereto whether called Plantation Bitters or not, is a criminal under the U. S. Law, and will be so prosecuted by us. We already have our eyes on several parties re-filling our bottles, &c., who will succeed in getting themselves into close quarters. The demand for Drake's Plantation Bitters from ladies, clergymen, merchants, &c. is unparalleled. The simple test of a bottle is the evidence we present of their worth and superiority. They are sold by all respectable druggists, grocers, physicians, hotels, saloons, steamboats and country stores.

G. VENARD,

CHARTRES COFFEE!

Manufactory Established in June, 1851.

STEAM POWER, NOS 630 AND 632 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, QUEEN COFFEE of the best qualities CREAM OF TARTAR and SPICES of all sorts.

The undersigned has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name so justly by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here, and in the markets of the interior a decidedly higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who be counterfeit or imitations of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can do it evidently after a trial but only adds to the favorable opinion of it consumers the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.

BEWARE OF COUNTERFEITS.

Each package bears the signature of G. VENARD.

R. G. SNE

SPAIN AND CHILE

The Outrage at Valparaiso.

BOMBARDMENT INCREASING AGAINST

[Correspondence of the New York Herald]

THE BOMBARDMENT

When the day for the bombardment arrived Admiral Denham declined to keep his promise with Rodgers and the bombardment was of course not prohibited. The Commodore sent word the night before the bombardment that he will brook all opposition and next morning weighed anchor and stood off the harbor to be out of the way of the bombarding fleet. The smoke and mist hung low on the first, and from our position we could not see the bombardment. When the Spaniards withdrew we steamed in and sent our surgeons and men ashore to give assistance to the wounded, and now and to aid in suppressing the fire

A NICE BIT OF DIPLOMACY.

The course of Commodore Rodgers and General Kilpatrick has gained them the respect of all classes—the Spaniards, Chilians, English and French—and has given me of the most one of the sweetest revenges ever enjoyed by man, which I will endeavor to explain that all Americans may enjoy it. As far as this fleet has been the foreign part of the population of the South American coast have been secesh, and during the war they were as insulting to "Yankees" as they dared to be. The English residents of Valparaiso were particularly our "dearest friends," and hated us most cordially. During the rebellion they repeatedly informed the people of this country that the United States were "played out." At this place the idea of American men clads going outside a harbor was laughed at and kept as a standing joke ever since the days of the first ill fated Monitor. They laughed at the comparison of an American iron-clad with the *Leander* and *Sutlej*—both crack English vessels—or even with the *Numancia*. Great was their rage when their own Admiral abandoned them to bombardment, and greater their chagrin when, seeing the English and French vessels leaving the harbor, they were compelled to go to Commodore Rodgers and beg the protection of the American obsoesbox *Monadnock* and American flag. It was hugely gratifying to see those same people, who had been abusing us for the last four years, asking the protection which their own fleet could not or would not afford. English interests in Valparaiso are immense, American interests a mere fraction and the revenge was cheap and those on shore who had to suffer enjoyed it. I believe it did the heart of the old Commodore good to refuse them protection, and to intimate that he was not going to "pull English chestnuts out of the fire." The French Minister asked protection for French interests

"Excuse me" said the Commodore, "you had a squadron here"

"Pardon," replied the French Minister, "it sails to day and abandons us to our fate."

The Prussian Minister, and the Italian Minister, too, asked aid, but no aid could be tendered them. The English residents got frantic, and on the day before the bombardment published the following advertisement in the paper

FOR SALE OR TO SAIL.

Her Britanic Majesty's steam frigates *Leander* and *Sutlej*. These new and safe vessels can be bought or chartered to go anywhere or for any purpose, *except to fight*. Inquire for terms to Jack Denham, Captain on board, or to J. H. Thompson, Minister Resident at Santiago.

The Americans chuckled with delight, perfectly content to suffer themselves to see the agony of the French and English. On Saturday the English residents sent off to the English Admiral a handsome cane, in which was a handsome wooden sword! The English Minister, Thompson, came to Valparaiso and left in a hurry the day before the bombardment. His room at the hotel was entered and his dispatches taken, and on his arrival at his hotel in Santiago he was given notice to quit by the proprietor. He was also turned out of the club, of which he had been a member for the last forty years. The English fleet is now at a discount, the officers do not go ashore, and they are "damned all in heaps." On the contrary, the English residents say we are "bully boys," and swear by John Rodgers, although he didn't save their property.

IMPORTANT DOCUMENTS BROUGHT TO LIGHT.

The Chilleans, too, are loud in their praise of us. More than this, they have shown their gratitude in an important service. Certain highly important documents sent to the Chilean President by the Dictator of Peru have been given to General Kilpatrick and forwarded by him to Washington. These documents came to light in this manner: Some time ago a French stranger suddenly died in Lima. The Peruvian Government took charge of his papers, &c., as is usual, and among them discovered documents which proved him to have been a French agent coming with proposals to the Dictator of Peru to make himself King or Emperor, promising aid in men and money from France under the Mexican flag—in other words, through Maximilian. These papers show that there is a nice little scheme between France and Spain to make a jump at all the small South American republics. England approves, but does not help by men or money. This whole Chilean war is part and parcel of the plan. This important information goes by this mail to Washington, and you will, doubtless, have more of it from that source.

REINFORCEMENT OF THE SPANISH SQUADRON

The Spanish squadron at Valparaiso has been reinforced by the arrival of the screw frigate *Almanza*, of sixty guns; and the screw corvettes *Vad-dras* and *Concello*, twenty guns each, and the transport *Vrasilad*, six guns, are now due here. These vessels bring a large supply of clothing and ordnance stores. Among the latter are twenty-eight rifled guns of the largest calibre for distribution among the other vessels of the squadron, the *Numancia* receiving the largest portion, and besides they have fifteen hundred men, marine infantry, for duty on shore should their services be required in that way. Other ships are looked for daily; among them additional iron-clads. The Spanish force now stands as follows:

	Guns.
Numancia, iron-clad, 3,000 tons screw	40
Villa de Madrid, screw	60
Almanza, screw	60
Berenguela, screw	50
Olanca, screw	60
Resolucion, screw	40
Marquis de la Victoria, screw	3
Vencedora, screw	8
Total	300

—The arrival of the others will increase this force as follows

	Guns.
Trinidad, screw	6
Val-dras, screw	20
Concello, screw	20
Additional for distribution	28
Making a grand total of	370

This is a very respectable force, one that can inflict serious damage, and one that the *Hercules* and *Independencia*, Peruvian iron clads, may find not so easy to destroy as they suppose

THE FUTURE MOVEMENTS OF THE SPANISH SQUADRON

are known, but you may expect to hear by any arrival of a repetition of the scenes at Valparaiso. Nunez can now afford to leave a portion of his fleet to maintain the blockade of Valparaiso while he moves north or south on his errand of destruction. He may, however, and probably will keep his forces well in hand until the Peruvian iron-clads make their appearance.

CONDEMNATION OF THE ACTION OF THE BRITISH AND FRENCH AUTHORITIES.

The British residents of Santiago have confirmed the resolutions of their countrymen in Valparaiso, in which the conduct of their Charge and Admiral was so severely condemned for not having prevented by force the bombardment of Valparaiso and consequent destruction of their property. A copy of these resolutions were forwarded by the last mail. It is also stated that the French residents in Valparaiso had presented their claims for the damage they had sustained by the bombardment

LOSSES SUSTAINED BY THE BOMBARDMENT

The following is a statement given of the losses sustained by the bombardment and the fire created thereby

Public property	$172,500
Private property	4,500,000
Furniture	100,000
Merchandise	2,500,000
Total	$10,181,000

HOW DIVIDED

Public property	$172,500
To Chilenos	7,500
To foreigners	9,900,000
Total	$10,181,000

This estimate is considered below the mark and the immense difference of the loss sustained by foreigners over the government and people of Chile is supposed to be given for effect, more than for its extreme accuracy. There is no doubt but that the foreigners have suffered vastly more than the Chilenos, as they will whenever any point on the coast is bombarded, for remove everything, foreign throughout the length and breadth of these Spanish American republics, and there is little left to destroy.

DESIGN OF ADMIRAL NUNEZ

It is a fault of the people of the various republics south of the equator that if they become involved in a quarrel with a strong foreign Power they do and not upon their own strength or energy to maintain their point, but look for safety in the large foreign interest to be found in all of their seaports, thinking that nothing will take place whereby this foreign interest will be damaged. This has been the principal reason why the Chilenos continued to think that Valparaiso would not be bombarded and seriously injured they relied upon the presence of England, France and the United States to aid them and it was only at the last moment that the truth stared them in the face that these Powers would remain neutral and would not interfere with the Spaniard to prevent his carrying out threats that Chile believed to be a thing but bombast. Even with what has occurred it is considered yet that other points will be safe on account of foreign property, but as Commodore Nunez was not prevented from carrying out the orders of his government here with high or the presence of the combined squadron of France, England and the United States it is not probable that he will stop elsewhere as his orders are, as believed to be to do as much mischief as he possibly can on the coast of Chile and Peru

THOROUGH ENLIGHTENMENT WITH THE PERUVIAN DESPATCHES.

The other ports of Chile that will probably receive the attention of Commodore Nunez are Coquimbo Caldera, and then Peru will come in for her share, and probably Ecuador may have a taste of war by a visit from the Spaniards to Guayaquil, but it will be a little while yet before this work is commenced, for the Spaniards will probably have another crank at the fleet of the allies to the southward before carrying out the other programme to the northward. I learn that the Peruvian corvettes Union and America have left the balance of the allied fleet and gone to the Straits of Magellan to join company with the *Hercules* and *Independencia*. I would not be surprised if the Spanish squadron, or a large portion of it, would visit that locality in order to head off the two expected iron clads, and try to prevent their reaching the Pacific ocean. The probabilities are they will do so, and we may next hear of an important and highly interesting naval engagement somewhere in the vicinity of Terra del Fuego

THE AMERICAN SQUADRON

There has been no change in the United States squadron here. Admiral Pearson has not yet arrived. The coming of the norther season on this coast may scatter the numerous vessels of war here collected, for the anchorage in this bay is said to be anything but comfortable at that time.

The Southern States.

GENERAL SHERIDAN'S TESTIMONY.

The testimony of General Phil Sheridan, forwarded by mail from New Orleans, in response to interrogatories sent to him by Senator Williams, as Chairman of the Sub Committee, is as follows

HEADQUARTERS, MILITARY DIVISION OF THE GULF,
NEW ORLEANS LA., March 31, 1866

To the Hon Geo H Williams, Chairman of the Committee for the Investigation of Affairs in Louisiana, Texas and Florida, Senate Chamber, Washington, D C

DEAR SIR: Your communication of the 24th ult., requesting information as to affairs in Louisiana, Texas and Florida, came duly to hand but owing to my absence in Florida, I have been prevented from responding at an earlier day. In compliance with your request, I have the honor to submit herewith my opinions on the subjects therein particularized.

Q What are now the feelings of those who took part in the rebellion and sympathized with it towards the General Government?

A I believe they accept the situation and have earnest desire for the restoration of a perfect Union, but exhibit at the same time an unmistakable desire to glorify rebellion.

Q. What has been the effect of the unrestricted exercise of the pardoning power upon such persons? Has it made them more friendly or otherwise towards the Federal Government?

A. I have noticed no particular change in sentiment on account of the clemency of the Executive.

Q. What would be the effect, in your opinion, upon the State organization if the people were left without control to act for themselves? A I believe they would quarrel among themselves, and that the sensible and substantial people would regret the absence of the military force

Q. Are the offices of the State now in the hands of loyal or disloyal men? A. A very large number of the offices of the State are in the hands of Confederate soldiers and other active participants in the rebellion, I am unable to say what their actual sentiments are in reference to the general government, but think their outspoken sentiments depend, to some extent, on what is their best policy in order to hold the offices, I have seen those high in authority in a transition state for the same reason.

Q What are regarded as the chief recommendations for office, and what sort of persons would be elected without any outside influence? A The inclination to glorify rebellion gives those who were active participants in it the preference for election by the people or appointment by those in power

Q. What would be the condition of the loyal men if they were left without any protection by the federal government? A My impression is that for the present they would feel unsafe, and many of them leave the country

Q State your opinion as to the necessity for the continuance of a military force in your department, and your reasons for this opinion. A. I consider it necessary to maintain a military force in my division for the following reasons. To give security to Northern capital and Union people, and to give no actual and moral support to the freedman until he has time to work out his social status. I also believe its presence necessary to prevent quarreling among Southern people themselves

Q. What is your opinion as to the necessity and expediency of the Freedmen's Bureau? A The Freedmen's Bureau gives that security to the freedman which arises from having some one to look after his interests, a change might be made by appointing an inspector general of freedmen, with the necessary number of assistant inspectors, under charge of the department commander, which would be much more economical, but it would be imposing duties on the military which I do not recommend, as I think it should have as little as possible to do with civil affairs

Q What would be the condition and fate of the freedmen if left without protection under the exclusive control of the white people there? A I fear there would be a great deal of trouble, a large number of the people would act in good faith toward them, but there would be many who would not and a war of races, to some extent, would probably be the consequence.

Q State fully your opinion as to the capacity of the colored people What do they know, and to what extent can they exercise the rights of freemen? Are they willing or unwilling to work without physical compulsion, with kind treatment and fair wages, and state what, in your judgment, is the best course for Congress to pursue in reference to these people? A The colored race, like all other races, have different degrees of intelligence and capacity, in New Orleans, where colored people are better treated than in any other city in the United States, there is an excellent colored society, and a very high degree of refinement exists in it. Starting from this you can go into the State of Louisiana and find the colored man at as ignorant as it is possible for any human being to be, the freedmen, so far as I am informed have a great desire to learn, I cannot say whether they learn rapidly or not, I believe they are willing to work, because their necessities compel them to do so, in this they are like all other races, I never have known a white or a black man who was performing manual labor for the love of it. I believe the best thing that Congress or States can do is to legislate as little as possible in reference to the colored man beyond giving him security in his person and property, his social status will be worked out by the logic of the necessity for this labor as in the only labor that can be obtained in the South for some time to come

Q Please make such suggestions as occur to your mind as to the most judicious and efficient remedies for the evils that exist in your department, growing out of the late rebellion. A The feeling and sentiment of those within the limit of my command is as good, perhaps, as could be expected, still not satisfactory. The people of Louisiana are poor, and to the best of my knowledge heavy mortgages exist upon perhaps, the majority of the plantations in the State for debts contracted before the war, in many instances the plantations will fall into the hands of Northern people, who from present appearances, will at no very distant period control Louisiana even in sentiment having this prospect before them, it is surprising that a spirit of bitterness and dissent should exist. I believe that a majority of the people are not opposed to the general government, and in fact earnestly desire to be restored to a perfect union with the other States still such sentiment if not yet stamped to obtain the recollection of their having been refused from influence to limited means, the chagrin of being conquered and to submerge the idea of justifying rebellion and its representatives, this latter idea and its consequences prevail to so great an extent that I consider the retention of the military in Louisiana for some time as necessary to the present security of emigrants, freedmen and capital; Florida is not poor from old debts and havoc of war, like Louisiana, and the tone and sentiment of the people is very fair, and a real desire is manifested to be restored to a perfect Union, Texas has remained in wealth by the rebellion, among the better people there is now a very good feeling toward the government, there is a lawless class of people there, however which that sentiment does not control and which cannot be controlled but by the military, the constant in the State will not change from the influence of Northern emigration and Northern capital, as in the State of Louisiana; it is essential that the military in considerable force, be maintained in the Department of Texas

I have the honor to be, sir, very respectfully your obedient servant,

P H SHERIDAN
Maj r General Commanding.

A Conservative Falsehood

When the Conservative Indians of Indiana in the Democratic platform pointed to the monstrous attempt which their master has attempted to perpetuate, they excuse it by saying that he is following in the footsteps of President Lincoln! But I reply to this falsehood in the words of Colonel Forney that

"Mr Lincoln never dreamed of the despotic doctrine of restoring a beloved and broken Government by his own act, or without the consent of Congress! Such a theory, subversive of the whole idea of Republican liberty and repugnant to his own character public and private, might be acceptable to an autocrat! He feared and loved the people, but never to one who so loved his country and its countrymen"

Who believes that if Mr Lincoln had lived he would have gobbled a plan of reconstruction of his own, and attempted to enforce it in defiance of Congress! In his amnesty proclamation of December 8, 1863, which is so much prated by Johnsonites he declares as follows

"To avoid misunderstanding," * * * "it may be proper to further say that whether members sent to Congress from any (insane) of States) shall be admitted to seats constitutionally rests exclusively with the respective Houses, and not *in any extent with the Executive*"

But more than this In the last public speech he ever uttered—three days before his assassination—referring to the Government he had overturned to set up in Louisiana, he said

"I also say in the proclamation *that while protected that the Executive should not object to any such new State that may be formed within a United States*" This plan was in advance submitted to the then Cabinet, and as distinctly approved by every member of it One of them (Seward) suggests that I should omit the protest against my own power in regard to the admission of members of Congress from the rebel States.

I think the six extracts pretty effectually disprove of the slanderous allegation that the martyred Lincoln would have attempted to force the insurgent States into Congress, on a plan of his own in defiance of the will of Congress They show, too, where Johnson got the idea that he could do it. The member of the Cabinet, who in December, 1863, tried to induce Mr Lincoln to "omit his protest" against the President's power to interfere with the prerogatives of Congress, is doubtless at the bottom of the Johnson programme of reconstruction and usurpation, though he keeps in the back ground. He is the unseen hand that moves the Administration and inspires the President with courage to do wrong and subvert the work of the war.—*Correspondence Chicago Tribune*

THE LATE CONFEDERATE LOAN.—The Secretary of State, by direction of the President, has examined certain papers submitted to him relating to the late Confederate loan. Among them is a communication dated London, March 19th, 1866, and signed by order of Sir Prove Wallis, K C B., E Morgan, Secretary, Francis Phillips, C. M. T. Weston, W M Morgan, J. M. Howey. The plan which they propose is, that the United States Government shall furnish to that Committee a copy of the contract which they say was made between Erlanger & Co., of Paris, and the late Confederate Government at Richmond, together with the particulars of the settlement of the same. The Committee promise that the outstanding Confederate cotton loan bonds shall be delivered up to agents of the United States for cancellation, the bondholders to guarantee that either they or their friends will subscribe forthwith to a new loan, to be created by the cotton and tobacco States, for five million pounds (£5,000,000), at fifty per centum, payable in London, the money to be used solely in redeveloping the revenues of those States. In the event of the credit of the southern States being restored, through the influence of the last mentioned operation, a second loan of £10,000,000 is to be taken at sixty per centum, within three months after placing the first loan upon the market. In the event of such second loan being successful, then a loan of £10,000,000 is to be taken, at seventy per centum, after a like interval of time.

After reviewing the above mentioned and other communications submitted, the Secretary of State says: "I am of the opinion that neither the nature of these several communications, nor the matters discussed therein, are the form in which they are therein treated, nor the character of their authors, nor that of their agents, is such as to deserve consideration on the part of the Government of the United States"

REPRODUCTION OF THE BANK OF ENGLAND.—The Bank of England, in estimating the profits of the establishment, have never taken into consideration the enormous increase of value of their estate For instance, the property in Throgmorton street stands in the Bank books at its cost, though since it was purchased land has risen to more than ten times its former price In addition to their capital and surplus profits, amounting to £17,731,603, their London estate alone is worth nearly £2,000,000 more than it cost them

Barned's Bank at Liverpool was carried on by a joint stock company, which gave its proprietors last year £160,000 for their business. The Directors made a gross profit of $250,000, and $150,000 net, after allowing for rebate of bills at a higher rate of interest than they had been done at, but they had discounted $19,500,000 of cotton and other bills, and came to grief in the panic the other day.

"CONSTITUTION WATER,"

THE ONLY REMEDY FOR DISEASES OF THE

BLADDER, KIDNEYS,

Gravel, Dropsical Swellings,

GENITAL DEBILITY, ETC.

THE ASTONISHING SUCCESS WHICH HAS AT tended the introduction of this valuable remedy into the United States, and the numerous and almost miraculous cures it has effected within the last few months, have induced many of the most eminent physicians to prescribe it in their regular practice, and also to recommend it to their patients, in preference to any other remedy known to the profession. It is the only positive remedy known for the following diseases, and in all cases it will be found to give immediate relief.

DIABETES, IMPOTENCY,
LOSS OF MUSCULAR ENERGY,
PHYSICAL PROSTRATION,
IRRITATION,
SEMINAL WEAKNESS,
GRAVEL, DROPSICAL SWELLINGS,
AND ALL DISEASES OF THE URINARY ORGANS.

And in very many of any way connected with the disorder or decay of the REPRODUCTIVE FORCES. Persons about entering the married state should take the

CONSTITUTION WATER,

Which will build up and give vigor to the system, purify the blood, restore the watering and relaxed organs to their natural tone, invigorate and build up. With many the celebrated Constitution Water will prove the

MEDICAL WONDER,

Thereby producing healthy action and digestion and build up the whole system. Many persons have been given over by physicians, pronounced by them incurable, which was positively caused by the use of the Constitution Water, and in almost every instance the patient was benefited. Many who have been troubled with Gravel, Dropsical Swellings, Genital Debility, Irritation of the Neck of the Bladder, Inflammation of the Kidneys, and Obstruction of the Bladder, have been entirely cured by the use of the Constitution Water. Many who have been troubled with Gravel, Dropsical Swellings, Genital Debility, Irritation of the Neck of the Bladder, Inflammation of the Kidneys, and Obstruction of the Bladder, have been entirely cured by the use of the Constitution Water.

STRANGURY AND BURNING OR PAINFUL URINATING

CALCULUS, GRAVEL,

BRICK DUST DEPOSITS, AND MUCOUS OR MILKY DISCHARGES AFTER URINATING.

If these diseases are left to run on certain death is the result. Many who have been troubled with Gravel, Dropsical Swellings, Genital Debility, Irritation of the Neck of the Bladder, Inflammation of the Kidneys, and Obstruction of the Bladder, have been entirely cured by the use of the Constitution Water. Many who have been troubled with Gravel, Dropsical Swellings, Genital Debility, Irritation of the Neck of the Bladder, Inflammation of the Kidneys, and Obstruction of the Bladder, have been entirely cured by the use of the Constitution Water.

CONSTITUTION WATER.

Males or Females,

Are you troubled with that distressing pain in the small of the back and through your hips? CONSTITUTION WATER will relieve you this distressing pain.
